# SHOE4AFRICA

[www.shoe4africa.org](http://www.shoe4africa.org)

*The Kibera slum in Kenya is Africa's largest, housing 1.2 million impoverished people in a garbage dump roughly the size of Central Park. People walk barefoot in sewage, and disease is rampant. Your shoes will change one person's life. Thank you.*

*"You have run your race, now give others a chance. This is the start of a drive to get shoes for every single person in the slum. Not just to give dignity to the man who walks to work, to the child who plays in the slum, but studies have shown that hookworm (maggots entering the body through wounds and toenails) accelerates the onset of the AIDS virus that is so prevalent in Kibera."*

*– Anthony Edwards*
